Bounce Count

Bounce Rate: Rate of users who leave the site without engaging beyond the first page.

- Conversion rate is high (~64%)
- Users mainly from US & IN
- Mobile and desktop usage balanced
- Biggest drop at checkout (add_to_cart → purchase)

A/B Testing Results

🎯 CR Control

64.0%

CR Control

🎯 CR Variant A

64.2%

CR Variant A

🎯 CR Variant B

64.1%

CR Variant B

Variant_A shows a slightly higher conversion rate compared to Control.
However, the uplift is marginal (~0.5%) and may not be practically significant.

Recommendation:
Do not roll out yet. Further testing with stronger variations is recommended.
